**Services Offered:**
Children’s Hospital Central California provides diagnostic, treatment and referral services to children ages birth to 21 years in California’s Central Valley, at the only pediatric hospital between Los Angeles and San Francisco and the largest children’s hospital between San Diego and San Francisco. Patients are seen and treated from initial diagnosis to and beyond bone marrow transplant for which patients are referred to nationally recognized transplant centers. Patients receive specialty care within the Fanconi anemia treatment program as well as from Genetics, Orthopaedics, Cardiology, Behavioral Health Sciences and other specialty services. Patients with Fanconi anemia are provided supportive, educational, and consultive services to further enhance care.

**Children’s Hospital Los Angeles, Keck School of Medicine, University of Southern California**
4650 Sunset Boulevard, MS #62
Los Angeles, CA 90027

MACC Fund Research Center, Suite 3
8701 Watertown Plank Road
Milwaukee, WI 53226

Monica Thakar, MD
Telephone: 414-955-4170  Fax: 414-456-6543
Email: mthakar@mcw.edu

**Services Offered:**
- Evaluation of new and previously diagnosed patients;
- Personalized treatment regimens and coordination of care by specialists in hematology, bone marrow transplantation, cardiology, endocrinology, genetics, gastroenterology, nephrology, urology, orthopedics, social work;
- Stem cell collection, storage, and infusion;
- Expertise in matched sibling donor, unrelated donor, and haploidentical (alternative donor) transplantation for Fanconi anemia;
- Collaborations with Fred Hutchinson Cancer Research Center and Memorial Sloan-Kettering Cancer Center in alternative donor clinical trials.

Note: FANCD2 immunoblot=FANCD2 western=FANCD2 ubiquitination.

Services Offered:
- Evaluation of new and previously diagnosed patients;
- Personalized treatment regimens by specialists in bone marrow transplantation, cardiology, endocrinology, genetics, hematology, nephrology, urology, orthopedics, hand surgery, social work, and family support network;
- Pharmacological and other clinical trials (e.g., cytokines and flavonoids);
- Fanconi anemia repository for samples and data;
- Expertise in matched sibling donor and unrelated donor transplantation for Fanconi anemia;
- Fanconi anemia complementation and mutation analysis;
- Stem cell collection, storage, and reinfusion;
- Collaboration with, International Fanconi Anemia Registry (Arleen Auerbach, PhD).

City Of Hope

- Joyce Collins, PhD, Cytogenetics
- Smita Bhatia, MD, Pediatrics, Hematology/Hematopoietic Cell Transplantation and Director, Population Sciences

- Christina Cabanillas, LCSW, Social Worker, Pediatric Hematology/Hematopoietic Cell Transplantation

Services Offered:
- Diagnostic testing and screenings of siblings;
- Complete evaluation, treatment and follow-up of new and previously diagnosed FA patients;
- Information and assistance for physicians in the care of their FA patients;
- Cancer screening and specialist consultations;
- Genetic counseling;
- Hematopoietic stem cell transplantation from siblings, matched unrelated donors and umbilical cord blood units;
- Long-term, Fanconi anemia-focused, post-transplant follow-up.

Specialists:
Adolescent Medicine/Gynecology: Amy DiVasta, MD
Blood and Marrow (Stem Cell) Transplantation: Leslie Lehmann, MD
Cardiology: David Harrild, MD, PhD
Endocrinology: Laurie Cohen, MD
Gastroenterology: Leonel A. Rodriguez, MD, MS
Genetics: Jonathan Picker, MD, PhD; Pam Hawley, MS, CGC
Hand Surgery: Brian Labow, MD
Hematology: David A. Williams, MD; Colin Sieff, MB BCh; Mary Cogan, CPNP, RN, CPHON
Molecular Diagnostics: Alan D’Andrea, MD; Lisa Moreau, MS, CLSpCG; Bai-Lin Wu, PhD, M Med FACMG, Ann E. Reinhard, MS, CGC
Nephrology: Michael Ferguson, MD
Otolaryngology: Reza Rahbar, DMD, MD, FACS
Pulmonary Medicine/Aero-Digestive Disorders: Catherine Sheils, MD
Social Work: Susanna Locke, LCSW
Urology: Hiep (Bob) Nguyen, MD

Services Offered:
- Our Nurse Practitioner arranges a comprehensive evaluation for each new patient, including confirmation of diagnosis, genetic typing, HLA typing, and a multi-system evaluation. The team carefully examines previous diagnostic test results and past medical history to guide the initial evaluation in the multi-disciplinary clinic. This results in a written summary and recommendations for the referring physician and the patient’s family. Ongoing care may continue at Children’s or in partnership with the referring physician. Psychosocial support is available and an important part of our long-term care of families of patients with serious diseases.
- A variety of innovative clinical trials are available for enrollment. Two current studies for patients with Fanconi anemia are: 1) the use of danazol, an androgen and 2) a hematopoietic stem cell transplantation trial for those lacking a genotypically identical donor.
- Diagnosis of new FA patients through Clinical Laboratory Improvement Act (CLIA)-certified diepoxybutane (DEB) test.
- Facilitation of DNA mutation identification via CAP/CLIA-certified DNA sequencing in the Laboratory

- Complementation analysis via retrovirus gene transfer.
- Fundamental research in DNA repair pathways, induced pluripotent stem cells and gene therapy.
- Referral for pre-implantation genetic diagnosis services at two sites in Boston if we find disease-causing mutations.

Services Offered:
- Comprehensive care and long-term follow-up of new and previously diagnosed patients, including:
- Overall medical and hematological care;
- Hematopoietic stem cell transplantation with related, unrelated, matched or mismatched donors;
- Psychological evaluation and treatment;
- Head and neck cancer evaluation and treatment;
- Gynecological cancer evaluation and treatment;
- Endocrinology clinic;
- Direct collaboration with Dr. Agata Smogorzewska, The Rockefeller University, for mutation screening,
complementation group analysis, and participation in the International Fanconi Anemia Registry (IFAR)

- Direct collaboration with Dr. Aaron Daluiski at the Hospital for Special Surgery, Pediatric Hand Registry (IFAR).
- Cell biology research on hematopoietic stem cells and progenitor populations in neoplastic and genetic diseases.

Services Offered:
- The University of Minnesota Fanconi Anemia Comprehensive Care Program (FACCP) utilizes a multi-disciplinary team approach to ensure that the care we provide is individually tailored to meet the unique needs of each patient and family.
- The FACCP is composed of expert health care providers who specialize in blood and marrow transplantation, hematology, cancer (head and neck, gynecological), infectious disease, neurology, nephrology, cardiology, care partners (volunteer family support), social work, genetics, voice reconstruction (to treat androgen side effects), nutrition therapy, orthopedic surgery, endocrinology (diabetes, short stature), dietician, gastroenterology, gynecology and fertility counseling, and radiation therapy;
- Consultations with new and previously diagnosed Fanconi anemia patients;
- Individualized treatment planning for newly diagnosed children and adults who do not need transplant;
- Blood and marrow transplantation: expertise in unrelated marrow and umbilical cord transplantation and matched sibling donor transplantation for Fanconi anemia with a 24-bed pediatric inpatient unit in the new Children’s Hospital and a 30-bed adult inpatient unit and state of the art outpatient bone marrow transplantation clinic;
- Genetic counseling and coordination of complementation group analysis, mutation screening, somatic mosaicism studies, and other genetic testing options including prenatal genetic testing and pre-implantation genetic diagnosis (PGD);
- Family support services including nurse coordination, social work, genetic counseling, care-partners, and child and family life specialists to assist families throughout the diagnostic, transplantation, and post-transplantation processes;
Family umbilical cord blood banking;
Ongoing research in stem cell biology, mosaicism, genetic correction of stem cells, mechanisms of bone marrow failure, and novel treatments with collaborators around the country.

University of Texas Southwestern Medical Center

  Email: zora.rogers@utsouthwestern.edu

- Andrew Koh, MD, Assistant Professor of Pediatrics,
  Hematology-Oncology
  Director, Stem Cell Transplant Program

Services Offered:
- Consultation and education for new and previously diagnosed patients and their families;
- Comprehensive clinical management of pediatric Fanconi anemia patients;
- Stem cell transplantation for Fanconi anemia; stem cell collection and reinfusion;
- Disease based follow-up post transplantation for Fanconi anemia;
- Coordinated referral to institutional subspecialists in cardiology, endocrinology, gastroenterology, nephrology, hand and orthopedic surgery interested in the unique needs of persons with Fanconi anemia;
- Psychology, social work, physical and occupational therapy services.
Delete Blood Cancer DKMS
100 Broadway, 6th Floor
New York, NY 10005
www.dkmsamericas.org
Telephone: 1-866-340-3567
Email: info@dkmsamericas.org

Delete Blood Cancer DKMS is committed to the fight against blood diseases like leukemia and Fanconi anemia, and strives to give every blood cancer patient a second chance at life by recruiting bone marrow donors from every race and ethnicity. We inspire hope by matching our donors with patients from around the world who are in need of a bone marrow transplant.

Delete Blood Cancer DKMS:
- is the world’s largest bone marrow donor center, with more than 3 million registered donors.
- can register new bone marrow donors anywhere in the U.S.
- performs HLA- A*, B*, C*, DR* high-resolution typing on every registered donor, minimizing the search time for finding the best possible donor match for a patient.
- offers doctors immediate search of our database.
- does not require new donors to pay the $65 registration fee.

National Marrow Donor Program®/Be The Match
3001 Broadway Street NE
Minneapolis, MN 55413-1753
www.bethematch.org
Telephone: 1-888-999-6743.
Outside of the U.S: 612-632-3410
Email: patientinfo@nmdp.org

Be The Match helps patients with leukemia, lymphoma and other diseases who need a marrow or umbilical cord blood transplant. People can join the Be The Match Registry® - the world’s largest listing of potential marrow donors and donated cord blood units - contribute financially, and volunteer. Patients and their families can also turn to Be The Match for support and resources before, during, and after transplant. Be The Match is operated by the National Marrow Donor Program® (NMDP), a nonprofit organization that matches patients with donors, educates health care professionals, and conducts research so more lives can be saved. Learn more at BeTheMatch.org/patient.

Services Offered:
Be The Match has a team dedicated to supporting patients, caregivers and families before, during, and after transplant. We offer confidential one-on-one support, financial guidance, and free educational resources. Our goal is to get you what you need, when you need it. We offer support in more than 100 languages, including Spanish bilingual staff and translated materials.
Cord Blood Registry®
Designated Treatment Program (DTP)
Cord Blood Registry
1200 Bayhill Drive, 3rd Floor
San Bruno, CA 94066
www.cordblood.com
Telephone: 1-888-932-6568

Cord Blood Registry® (CBR) is the world’s largest and most experienced family cord blood and tissue stem cell bank. Families wishing to store their newborn’s umbilical cord blood stem cells for a family member diagnosed with a life-threatening disease treatable by donor stem cells (including Fanconi anemia) are encouraged to apply for CBR’s Designated Treatment Program. If eligible, CBR will provide the collection kit and process and store the newborn’s cord blood and cord tissue sample for five years without any cost to the family. The family member must be a first-degree blood relative (full-sibling or parent) to the newborn and have an oncologist/hematologist or other treating physician agree that the stem cells can be used for treatment.

  Telephone: 713-486-5000 and 713-500-5410  
  Email: ron.j.karni@uth.tmc.edu

Clinical Interest: Head and neck cancer, robotic and minimally-invasive surgery of the head and neck.

Services Offered: Management of head and neck cancer including surgery, chemotherapy, and radiation oncology.

University of Texas MD Anderson Cancer Center
1515 Holcombe Blvd., Unit 1445  
Houston, TX 77030

- Erich Madison Sturgis, MD, MPH, FACS, Professor of Surgery, Professor of Epidemiology  
  Telephone: 713-792-5432  Fax: 713-794-4662

Clinical Interests: Head and neck cancer, salivary carcinoma, and thyroid cancer, human papillomavirus, and sarcomas of the head and neck

Services Offered: Multi-disciplinary evaluation and treatment of head and neck tumors.
Pre-implantation Genetic Diagnosis

Genesis Genetics
705 S. Main St.
Plymouth, MI 48170
www.genesisgenetics.org

- John Kitchen, PhD
  Telephone: 313-579-9650  Fax: 313-544-4006
- Shannon DeWall, MS, CGC, Certified Genetic Counselor
  Telephone: 313-579-9650  Fax: 313-544-4006
  Email: counselor@genesisgenetics.org
- Elizabeth Cameron, MS, CGC, Certified Genetic Counselor
  Telephone: 313-579-9650  Fax: 313-544-4006

Services Offered:
- Pre-pregnancy/pre-implantation diagnosis of FANCA, -C, -G. Helping a couple begin a pregnancy knowing their baby will not have Fanconi anemia.
- Extensive experience in Fanconi anemia mutation testing with HLA identity matching for families desiring a healthy baby and cord blood stem cells that are a perfect match to their Fanconi anemia-affected child needing stem cell transplantation.
- Personalized treatment regimens coordinated with the family’s hematologist, geneticist, obstetrician, and (if necessary) transplantation doctors. The FA family does not need to travel for these PGD services. Our clinic collaborates with the leading molecular biologists in Fanconi anemia research, with over 230 in vitro fertilization programs, and with internationally respected Fanconi anemia transplantation experts.

The Reproductive Genetics Institute
2825 N Halsted St.
Chicago, IL 60657
Telephone: 773-472-4900  Fax: 773-871-5221
www.reproductivegenetics.com
Email: info@reproductivegenetics.com

- Stephanie Miller, MGC, CGC
- Leighann Rohrsen, MS, CGC
- Divya Shah, MS

Services Offered:
- Pre-implantation genetic diagnosis for any known Fanconi anemia mutations with or without HLA matching for sibling bone marrow donation.
- Pioneers in PGD; first laboratory in the world to successfully perform PGD for FA and HLA matching. Highly accurate state-of-the-art testing methods.
- Able to test for chromosomal abnormalities in addition to FA and HLA on a single cell from an embryo.
- Free consultations with genetic counselors (in-person or via telephone).
- Travel to our facility is not necessary as we collaborate with hundreds of in vitro fertilization clinics all over the world.
