

7 Years of Progress! and What's Next

The Evolution of the Joel Walker Fund

**Scientific Meetings
2018-2020**

led to

**Cancer Ideas Labs
2021-2022**

*which
resulted in*

**Research study to
develop models for
treatment**

**Development of
a tumor board**

*and now we're
supporting*

**A patient advocacy
program**

**A global FA
patient database**

What We Are Focused on in 2026

Growing the FA Advocacy Program

Empowering patients and families through advocacy, raising awareness, driving policy change, and ensuring access to life-saving care and resources for the FA community.

Expanding the International FA Data Project (FRIENDS):

Uniting researchers and clinicians worldwide to accelerate breakthroughs in FA cancer treatment. This global collaboration is pushing the boundaries of what's possible in the fight against FA cancers.

**Your support has not only brought us this far but
also holds the key to our continued progress.**

**Thank you, from the Walker family and the entire
FA community!**
